# intertwining hi/stories Arts Education Festival

**OCT 02-07, 2017**  
**Exhibition Center Angewandte**  
**Heiligenkreuzer Hof**  
**Schönlaterngasse 5, 1010 Vienna**

**intertwining hi/stories** brings overlapping stories of arts education from different locations in the world together, aiming to trace the multi-layered histories of this field in order to develop critical practices and challenge seemingly closed European narratives of art and education.

The festival invites teachers, museum and gallery educators, art students, researchers, social workers, critical thinkers and artists to engage in storytelling sessions, workshops, exchange and discussions on arts education histories.
